Introduction and definition

## Introduction

The 2014 Workplace Flexibility Survey was administered by the Society for Human Resource Management (SHRM) to identify the prevalence and types of flexible work arrangements (FWAs) organizations offer. The survey also examined employee use of these programs, metrics/analytics on FWAs, success factors, the impact of these programs on both employees and employers, and challenges associated with FWAs.

The following topics are included in the two-part series titled "2014 Workplace Flexibility":

- Part 1: Overview of Flexible Work Arrangements
- Part 2: Strategic Use of Flexible Work Arrangements

## Definition

Flexible work arrangements, also known as workplace flexibility or workflex, are a dynamic partnership between employers and employees that defines how, when and where work gets done in ways that work for everyone involved (including families, clients and other stakeholders).
